KILLED BY TRAIN

JOHN JOSLIN OF CONCEPTION JUNCTION MET DEATH.

ASLEEP ON THE TRACKS

And Trains Dragged His Body Back and Forth—Was in an Intoxicated Condition, Says Witnesses.

John Joslin, aged 25 years, was dragged to death by Chicago Great Western trains some time Friday night on the tracks, about a half mile north of Conception Junction.

Joslin was one of the workers in a cinder pit in the yards at that place, and early in the evening Friday began drinking with a party of Greeks who worked with him. They continued their drinking until 1 o'clock Saturday morning, when the city marshal told Joslin to go home. He started up the track to the home of his brother, Jasper Joslin, who lives a mile north of Conception, and was carrying a lantern. It is supposed that he became sick or drowsy from the effects of the liquor and laid down on the track and went to sleep.

The northbound train, due about 1:40 o'clock Saturday morning struck him and dragged him a distance of twenty-nine feet, which was testified to by one of the witnesses, who measured the distance. The other train, due some time after 2 o'clock, dragged the body in the other direction.

The body rolled in the middle of the track, every bone was broken and the head almost severed. The undertakers wrapped the mangled mass in a sheet when they prepared it for burial.

The tragic end of the unfortunate man was discovered Saturday morning about 7 o'clock by his brother, who was coming down the track to his work as a section man. Badly as the body was mangled, he recognized it instantly as that of his brother. Another train, the local freight, was approaching, and he flagged it and ran for help.

The coroner's inquest was held at 1 o'clock Saturday by Dr. Wm. Wallis, Jr., and the verdict of the jury was that John Joslin came to his death by being struck by a train while in an intoxicated condition. Those on the jury were T. A. Carver, C. E. Llerly, R. L. Getz, John Smith and Homer Weatherman.

Young Joslin leaves a wife and two small children, who live near Council Bluffs, Ia. He came to Conception Junction only a short time ago in search of work, and when he obtained employment made his home with his brother, Zach Joslin, who lives one mile south of Conception.

The burial will probably take place to Guilford, in the White Oak vicinity, where the deceased had many relatives.

TO STOP "JAY" DRIVING.

The City Authorities Notify All Drivers to Observe the Road Laws—Special Policemen.

The city authorities are going to put a stop to "jay" driving within the city limits, and commencing Monday there will be a special policeman at the corner of Main and Third streets, and at the corner of Fourth and Main, to see that the road laws are being observed in regard to driving.

Elsewhere in this paper appears a notice from Mayor Robey, and part of it is as follows:

To all drivers of automobiles, buggies, wagons and all kinds of vehicles, riders of bicycles and motorcycles, must observe the road laws while driving within the city limits. There has been numerous complaints concerning jay driving. Pedestrians and users of the road do not know which way to go to keep out of the way of vehicles. There will be a large white spot painted in the middle of the intersections of some of the busy parts of the city, and drivers of all kinds of vehicles must keep to the right of these white spots.

On Monday morning there will be a special policeman put on the corner of Third and Main, also at Fourth and Main to see that these rules are observed and will be kept there until the people learn to obey the road laws. Only last evening a collision from neglect to observe the road laws was narrowly averted.

SUSTAINED A BROKEN NOSE.

Roy David, While Engaged in Playing at High School Picnic, Met With Accident.

Roy David suffered a broken nose yesterday evening while engaged in playing games at a class frolic. The spring class of the high school were having a picnic at the McJimsey park, east of town, and the students were playing a running game when the accident occurred. David and Abner Johnson, who were running together, collided in making a turn. David's nose was broken and a gash cut across the bridge of the nose and the cheek, which required four stitches. Johnson received a cut on the forehead which required two stitches. Although the injuries of both young men are very painful, they are both able to be around today, and no serious results are anticipated.

TO RETIRE FROM BUSINESS.

R. Deschauer is Now Selling His Jewelry Stock at Auction.

Rudolph Deschauer, one of the oldest jewelry merchants in Maryville, is going to retire from business as soon as his stock has been disposed of. This announcement will cause deep regret among his many friends, those who have dealt with him ever since he has been in business, as well as the friends he has made in recent years. Mr. Deschauer informs us that he feels that he has earned a much needed rest and that he intends to enjoy himself from now on.

He started in business in the building that The Democrat-Forum now occupies, in 1877, moving from here to the store which is occupied by T. J. Parle, and from there to the building he is now in. In all he has been in the jewelry business thirty-six years.

SELECTS MARYVILLE AS THE NEXT MEETING PLACE.

FOR M. E. CONFERENCE

Vote For This City Was Unanimously Conference Has Been Here Three Times—First in 1878.

The Missouri conference of the Methodist Episcopal church will meet next year in Maryville. Such action was taken at the conference, which is now in session at Trenton, and the vote to hold the meeting in this city was unanimous.

According to a dispatch from Trenton there were two other towns beside Maryville that wanted the conference next year. Their claims were presented. Rev. Gilbert S. Cox, pastor of the First M. E. church of this city, extended the invitation to the conference on behalf of Maryville, and made a fine address. After Rev. Cox's address the two other towns withdrew their claims, and made it unanimously for Maryville as the next meeting place.

The conference has been in Maryville three times. The first time it was in March, 1878. Then in March, 1890, and the last time in March, 1901.

TELLS OF MARVELOUS GROWTH.

George W. Lieber Speaks of Oklahoma City, Okla., Which Believes in a Square Deal for Every Man.

George W. Lieber of Oklahoma City, Okla., came to Maryville Friday night for a brief visit with his mother, Mrs. John Lieber, and sisters, Mrs. Gallatin Craig and Mrs. O. L. Holmes.

In speaking of Oklahoma City's marvelous growth, nearly all of which Mr. Lieber has witnessed and has been intimate with as a newspaper man, in reply to a question as to what he regarded as the principal reason for that city's rapid development, he said without hesitating an instant that it was due to the successful effort business men of that city have made in bringing about the square deal for every man.

The city has an inspector of weights and measures, who reports his findings to the city authorities. Any complaint made by any customer as to weight and measure of anything purchased is always investigated and the business man is arraigned in court and fined and the newspapers publish the court's finding.

The inspector examines all scales and measures to see that they are accurate, which makes him about the busiest man in town, and the merchants are as anxious to have their scales correct as is the customer, for when it is found that a man has had to be prosecuted for dealing dishonestly, he may just as well shut up his business at once, for he will not be patronized.

"A square deal for everybody and a city with the cleanest streets in the country" are two things Mr. Lieber takes pride in telling of his home city.

Mrs. Avery Connor, living south of Maryville, went to St. Joseph Saturday morning to visit Mrs. John Allen.

Mr. and Mrs. J. T. Karr went to Barnard Saturday morning to visit Mrs. Nannie Rogers for the day.

BIG SEEDLING PEACHES.

R. H. Duncan Has Fruit Measuring Ten and One-Half Inches in Circumference.

R. H. Duncan brought six seedling peaches to The Democrat-Forum office Saturday that would be good specimens any year, but especially so this season, when everything seemed unfavorable for peaches and a good many other things. The peaches measure 10½ inches in circumference.

Mr. Duncan raised the fruit on his place, on North Mulberry street. He dug the tree from which the fruit came, nine years ago from the side of the road by W. D. Ashford's place, just off of North Main street, and the next year planted its seeds.

Three years ago the trees were frozen down by the great sleet storm in this section, and the fruit shown today came from the sprouts that came up the following spring. Mr. Duncan has given the peaches the name of October peach, as they ripen about the middle of that month. The meat is a rich yellow and juicy.

POLITICAL NOTES.

(From Democratic Press Bureau.)

A man named Hadley has broken into print with a public confession. He would run for United States senator on the Republican ticket under certain conditions. Mr. Hadley will be remembered as the gentleman who assisted Dr. Roosevelt at the birth of the Bull Moose baby and then assisted the Republican party in its efforts to abduct the kid.

Keep it before the farmers. A Democratic state administration is spending three hundred thousand dollars upon the roads this year and every dollar of the money comes from grain speculators and automobile owners.

The Kansas City Journal, Republican, continues to pour hot shot into Mr. Roosevelt and the Moosers. Mr. Roosevelt and the Moosers continue to pour the same sort of ammunition into the standpatters and such organs as the Journal. Never were there such happy times for Missouri Democrats.

There is only one consolation left for the Republicans and Bull Moosers, and that is the privilege of lambasting each other. In both state and nation the Democrats have legislated so wisely and managed affairs so well that even the enemy can find no cause to complain. Except for the fun of taking out their spite on each other there's no telling what the Republicans and Moosers would do to relieve their feelings.

Goin' to the Dawgs.

About some forty years ago,
When I was but a lad,
Some people used to go around
With faces long an' sad,
They talked of tyrants, an' of trusts,
Of plutes, an' demagogues,
An' said this good old land of ours
Was goin' to the dawgs.

I was a child, an' as a child
I listened to it all,
Expecting every day to see
The nation hit the wall;
But I've about begun to believe
It ain't no use to fret—
The nation's doin' pretty well,
The dawgs ain't got it yet.

I hear 'em say if sich an' sich
A law should ever pass
'Twould bring a great calamity,
An' ruin the farmin' class;
But I don't pay no 'tention to
Their talk, because I know
They used to say the same old things
Some forty years ago.

FACTS ABOUT MISSOURI.

Interesting Researches Into the Early History of the State—First White Man Set Foot Here in 1541.

The University of Missouri prints the following interesting researches into the early history of the state:

In 1541 the first white man under De Sota set foot on Missouri soil.

The Missouri river was discovered in 1673 by Marquette and Joliet. Nine years later the same river was named the St. Philip, by La Salle.

1701 the French, under Count de Frontenac, built forts and started settlements in Southeast Missouri.

To Anthony Crozat the right of mining in Missouri was granted in 1712. Seven years later, Sieur de Locon dug lead on the Merrimac and M. de la Matte found this mineral near Fredericktown and Renault.

A Spanish expedition sent out from Santa Fe in 1720 was massacred by the Indians near Boonville. The country was thrown open two years after this by the king of France to all his subjects, and the lead mines were much improved.

Laclede Liguist established St. Louis in 1764. This place was made the capital of Upper Louisiana a year later by St. Ange de Bellerine.

The year 1787 is called "the year of the ten boats," because ten barges arrived in company at St. Louis from New Orleans.

In 1805 the territory of Louisiana was established with Gen. James Wilkinson as governor.

Fort Bellefontaine was established on the south side of the Mississippi river a few miles above the mouth in the year 1806.

The Missouri Gazette, the first newspaper west of the Mississippi river, came out in July, 1806. Joseph Charles was the publisher.

The territory of Louisiana changed its name to the territory of Missouri on January 4, 1812, with William Clarke as governor.

The first legislature of Missouri met in St. Charles on the third Monday in September, 1820. There were fourteen senators and forty-three representatives.

An act of the legislature passed Nov. 28, 1820, fixed the seat of government at St. Charles until Oct. 1, 1826, at which date it was to be moved to Jefferson City.

On Aug. 10, 1821, a copy of the act of the Missouri legislature was delivered to the president of the United States and he immediately proclaimed Missouri admitted to the Union.

The population of St. Louis was given as 5,500 in the first directory issued in that city in 1821.

The penitentiary was opened at Jefferson City in 1836. For some time there was only one prisoner.

The state house at the capital was burned in 1837 and with it all the early records.

The contest as to the boundary line between Iowa and Missouri began in 1838.

Half a million immigrants came to Missouri in 1839.

A fire in St. Louis destroyed 400 buildings valued at \$3,000,000 and in the same year, 1849, cholera proved fatal to more than 4,000 people.

In 1861 Governor Jackson called for 50,000 militia.

The convention of 1861 declared all state offices vacant and chose Hamilton R. Gamble as provisional governor, July 30.

The 1895 Pertle Springs Democratic convention on August 6 made free coinage of silver a national issue.

TARIFF MEASURE**

Democratic Leaders Witness
Ceremony at White House.

CURRENCY REFORM NEXT STEP

Executive Says Legislative Journey
"Only Partly Completed—Gold Pens
Used Given to Underwood and Simmons."

Washington, D. C., Oct. 4.—Surrounded by the leaders of a united Democracy, President Wilson signed the Underwood-Simmons tariff bill at the White House. Simultaneously telegrams were sent to customs collectors throughout the country by the treasury department putting into actual operation the first Democratic tariff revision since 1894.

A happy group of legislators, members of the cabinet and friends encircled the president as he smilingly sat down and slowly affixed his signature with two gold pens. He presented to Representative Underwood the pen that had written the word "Woodrow" and the one which had completed his name to Senator Simmons, both of whom bowed their appreciation.

In impressive silence the president delivered in easy, natural tones, an extemporaneous speech that brought prolonged applause.

He said that the journey of legislative accomplishment had only been partly completed; that a great service had been done for the rank and file of the country, but that the second step in the emancipation of business was currency reform. He earnestly called upon his colleagues to go "the rest of the journey" with fresh impulse.

The situation confronting the administration currency bill in the senate has become a matter of deep concern to President Wilson and members of the senate who favor early action on the bill. Four members of the senate banking and currency committee have tried to devise a plan for hastening action on the bill, but they have not decided finally what course to follow, if the full committee refuses to report the bill back to the senate.

NEXT MOVE IN DAVIS CASE

Use to Be Made of Confession Is Not Determined.

New York, Oct. 4.—What use will be made of the startling confession of George E. Davis, union iron worker and dynamiter, depends largely on the outcome of the cases of Frank M. Ryan and other officers of the iron workers' union, now on appeal in the federal courts.

Walter Drew, counsel for the National Erectors' association, whose pursuit resulted in the arrest of Davis here, said that if Ryan and his associates gained a new trial, Davis' revelations would be the government's most formidable weapon. Drew intimated that the arrest of Davis and of Harry Jones, secretary and treasurer of the iron workers' union, did not end the task of the erectors' association.

Jones, according to Davis, did much of the office work in connection with the dynamiting of a dozen bridges and steel frame buildings in the east. Davis was the man in the field.

Drew insisted that his association had no desire ruthlessly to persecute the union.

IMMUNITY GIVEN HENNING

Man in Funk Blackmail Case Names the Principals.

Chicago, Oct. 4.—Renewed vigor in the search for two men alleged to have supplied John C. Henning while he was a fugitive from justice was injected into the case after State's Attorney Hoyne had interviewed Henning, who has been promised immunity.

The state's attorney stated that Henning's evidence, while valuable, contained nothing not previously known in connection with the allegation that Henning's unsuccessful alienation suit against Clarence S. Funk was due to a conspiracy growing out of Funk's testimony against Senator Lorimer.

The two men who are missing are said to have been the agents of the men "higher up" in providing Henning with funds not only for his escape from a trial on a charge of perjury, but during his suit against Funk.

HIT IN FACE BY REED

Missouri Senator Strikes Witness in Lobby Investigation.

Washington, Oct. 4.—The senate judiciary committee room, where the recent lobby investigation was held, was the scene of a personal encounter between Senator Reed of Missouri, one of the leading members of the investigating committee, and John McIntyre, said to be a former officer of the National Typothetae, whose name figured in the correspondence of Martin M. Mulhall, the legislative agent for the National Association of Manufacturers. There were few witnesses to the episode, but it is said Senator Reed struck McIntyre in the face, accompanying his action with an emphatic statement as to the falsity of certain allegations contained in an affidavit which McIntyre was supposed to have in his possession.

**HUMPHRIES HAS
CHANGE OF HEART**

Court Dispenses Pardons and
Remissions Wholesale.

CHANGE FOLLOWS CONFERENCE

Tells Hearers, "I Hold the Keys, I Have Great Power"—Woman Prisoner Likens Him to Pontius Pilate—Score Still in Jail.

Seattle, Wash., Oct. 4.—Superior Judge John E. Humphries, who began the day in belligerent mood, with his docket bill of contempt of court cases against Socialists, and who began the session by denouncing his brother judges, who, he asserted, had been plotting against him, adjourned court after dispensing pardons and remissions to all comers. His change of attitude came after a consultation with a representative of eight other superior judges.

The most remarkable feature of the day in court was the discharging of Dr. Herman F. Titus, Kate Sadler and Millard Price, the citation of whom to answer contempt charges, because of speeches they made in city hall park, July 24, led to the "resolutions of defiance," whose signers have been on trial and a number of whom are in jail.

"Sassy" Defendants Fare Ill.
In the morning the penalties imposed were severe, in the afternoon mild. The court frequently warned the defendants not to be "sassy." Those who were "sassy" fared ill.

After the "defiant" persons had been disposed of the case of Dr. Titus on the charge of violating an anti-street speaking injunction was called. The judge delivered a long address, saying it had wrung his heart to be obliged to send so many of his old friends to jail, but declaring he must enforce the law. He had been obliged, he said, to send even his old cook, "Bole," to jail for "getting sassy."

The judge dwelt upon the great power he wielded, saying he had but to close his hands to put his hearers in jail, and to open it to let them out. He explained:

"I hold the keys. I have great power. I am higher than the governor. I can put you in jail and I can pardon you."

Then the judge discharged Dr. Titus to the latter's intense astonishment.

Score Still in Jail.
At the close of court the principals in the Socialist contempt cases were free and more than a score of persons were in jail in default of payment of fines, varying from \$5 to \$300 for "talking back to the court." Three of the latter had been sentenced to six months each in prison.

Five women are in jail for non-payment of \$100 fines. They are Mrs. L. F. Reed, a stylishly dressed young woman, who resented a remark made by the prosecutor about her good clothing and pleasing appearance; Mrs. Katherine Stirtan, who likened the court to Pontius Pilate; Mrs. Millard Price, who said she was from Missouri; Mrs. Annie Anderson and Mrs. Mary Jarvis.

ARSON AND GRAVE ROBBERY

Montana Rancher Arrested in New York on Many Charges.

New York, Oct. 4.—Charged with conspiracy, arson and robbery of a grave, Arthur S. Hughes, a ranch owner of Forsythe, Mont., was arrested here at the request of Sheriff Mosen of Rosebud county, Montana.

According to the complaint, a man named Craig was killed in Forsythe about two and one-half months ago by a railroad train. Hughes, it is alleged, took Craig's body from the grave, where it lay, carted it to his home, placed it in a bed chamber and then set the house on fire. The body, burned to a crisp and unrecognizable, was found in the embers and Mrs. Hughes went into mourning for her husband. Hughes, the complaint continues, disappeared.

A few days later Mrs. Hughes married Elliott and put in a claim for the \$3,000 insurance on Hughes' life.

CHEERFUL IN LIVING TOMB

Buried Miner Content to Spend Another Day in Prison.

Centralia, Pa., Oct. 4.—Cheerful in the face of disappointment because he has not been rescued from the gloomy cell 100 feet below the surface, where he has been entombed for eight days, Joseph Toshesky called through his food tube to rescuers that he was satisfied everything possible was being done to get him out and that he was content to spend another day behind the wall of coal.

Mine officials directing the rescue work at the Continental colliery, where Toshesky was caught behind a fall of coal last Friday morning, assured him that he would be liberated this afternoon.

Can Pick Up Little Extra Change.

Freeport, Ill., Oct. 4.—Conference evangelists have a perfect right to "pick up a little extra change" by lecturing at chautauques and filling other "outside" engagements. This was the sense of the Rock River conference of the Methodist Episcopal church as expressed when a motion was made to limit activities of the evangelists to duties prescribed by the church discipline.

**HEADACHY, COSTIVE,
BILIOUS—"Cascarets"**

Sick Headache, Bad Breath, Sour Stomach, Measly Liver and Bowels Are Clogged—Cheer Up!

Get a 10-cent box.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.—Advertisement.

**DUN'S REVIEW OF
TRADE CONDITIONS**

Business in Most Departments
Continues to Make Progress.

New York, Oct. 4.—Dun's Review of Trade says:

Business in most departments continues to make satisfactory progress, one feature being the increased disposition of merchants in numerous lines and widely separated parts of the country to anticipate future requirements.

Some uncertainty has been expressed as to conditions in sections of the south where the cotton crop is reported to have been adversely affected, but the high prices at which the staple is now selling has evidently removed apprehension. Similar conditions prevail in districts where crops suffered from drought.

In the east, where commercial and industrial operations have been retarded by tariff uncertainty, the final settlement has encouraged merchants and manufacturers and operations are on a steadily broadening scale.

Failures this week numbered 254.

KILLED BY TRAIN

JOHN JOSLIN OF CONCEPTION JUNCTION MET DEATH.

ASLEEP ON THE TRACKS

And Trains Dragged His Body Back and Forth—Was in an Intoxicated Condition, Says Witnesses.

John Joslin, aged 25 years, was dragged to death by Chicago Great Western trains some time Friday night on the tracks, about a half mile north of Conception Junction.

Joslin was one of the workers in a cinder pit in the yards at that place, and early in the evening Friday began drinking with a party of Greeks who worked with him. They continued their drinking until 1 o'clock Saturday morning, when the city marshal told Joslin to go home. He started up the track to the home of his brother, Jasper Joslin, who lives a mile north of Conception, and was carrying a lantern. It is supposed that he became sick or drowsy from the effects of the liquor and laid down on the track and went to sleep.

The northbound train, due about 1:40 o'clock Saturday morning struck him and dragged him a distance of twenty-nine feet, which was testified to by one of the witnesses, who measured the distance. The other train, due some time after 2 o'clock, dragged the body in the other direction.

The body rolled in the middle of the track, every bone was broken and the head almost severed. The undertakers wrapped the mangled mass in a sheet when they prepared it for burial.

The tragic end of the unfortunate man was discovered Saturday morning about 7 o'clock by his brother, who was coming down the track to his work as a section man. Badly as the body was mangled, he recognized it instantly as that of his brother. Another train, the local freight, was approaching, and he flagged it and ran for help.

The coroner's inquest was held at 1 o'clock Saturday by Dr. Wm. Wallis, Jr., and the verdict of the jury was that John Joslin came to his death by being struck by a train while in an intoxicated condition. Those on the jury were T. A. Carver, C. E. Lierly, R. L. Getz, John Smith and Homer Weatherman.

Young Joslin leaves a wife and two small children, who live near Council Bluffs, Ia. He came to Conception Junction only a short time ago in search of work, and when he obtained employment made his home with his brother, Zach Joslin, who lives one mile south of Conception.

The burial will probably take place to Guilford, in the White Oak vicinity, where the deceased had many relatives.

TO STOP "JAY" DRIVING.

The City Authorities Notify All Drivers to Observe the Road Laws—Special Policemen.

The city authorities are going to put a stop to "jay" driving within the city limits, and commencing Monday there will be a special policeman at the corner of Main and Third streets, and at the corner of Fourth and Main, to see that the road laws are being observed in regard to driving.

Elsewhere in this paper appears a notice from Mayor Robey, and part of it is as follows:

To all drivers of automobiles, buggies, wagons and all kinds of vehicles, riders of bicycles and motorcycles, must observe the road laws while driving within the city limits. There has been numerous complaints concerning jay driving. Pedestrians and users of the road do not know which way to go to keep out of the way of vehicles. There will be a large white spot painted in the middle of the intersections of some of the busy parts of the city, and drivers of all kinds of vehicles must keep to the right of these white spots.

On Monday morning there will be a special policeman put on the corner of Third and Main, also at Fourth and Main to see that these rules are observed and will be kept there until the people learn to obey the road laws. Only last evening a collision from neglect to observe the road laws was narrowly averted.

SUSTAINED A BROKEN NOSE.

Roy David, While Engaged in Playing at High School Picnic, Met With Accident.

Roy David suffered a broken nose yesterday evening while engaged in playing games at a class frolic. The spring class of the high school were having a picnic at the McKinney park, east of town, and the students were playing a running game when the accident occurred. David and Abner Johnson, who were running together, collided in making a turn. David's nose was broken and a gash cut across the bridge of the nose and the cheek, which required four stitches. Johnson received a cut on the forehead which required two stitches. Although the injuries of both young men are very painful, they are both able to be around today, and no serious results are anticipated.

TO RETIRE FROM BUSINESS.

R. Deschauer is Now Selling His Jewelry Stock at Auction.

Rudolph Deschauer, one of the oldest jewelry merchants in Maryville, is going to retire from business as soon as his stock has been disposed of. This announcement will cause deep regret among his many friends, those who have dealt with him ever since he has been in business, as well as the friends he has made in recent years. Mr. Deschauer informs us that he feels that he has earned a much needed rest and that he intends to enjoy himself from now on.

He started in business in the building that The Democrat-Forum now occupies, in 1877, moving from here to the store which is occupied by T. J. Parle, and from there to the building he is now in. In all he has been in the jewelry business thirty-six years.

WILL MEET HERE

SELECTS MARYVILLE AS THE NEXT MEETING PLACE.

FOR M. E. CONFERENCE

Vote For This City Was Unanimously Conference Has Been Here Three Times—First in 1878.

The Missouri conference of the Methodist Episcopal church will meet next year in Maryville. Such action was taken at the conference, which is now in session at Trenton, and the vote to hold the meeting in this city was unanimous.

According to a dispatch from Trenton there were two other towns beside Maryville that wanted the conference next year. Their claims were presented. Rev. Gilbert S. Cox, pastor of the First M. E. church of this city, extended the invitation to the conference on behalf of Maryville, and made a fine address. After Rev. Cox's address the two other towns withdrew their claims and made it unanimously for Maryville as the next meeting place.

The conference has been in Maryville three times. The first time it was in March, 1878. Then in March, 1890, and the last time in March, 1901.

TELLS OF MARVELOUS GROWTH.

George W. Lieber Speaks of Oklahoma City, Okla., Which Believes in a Square Deal for Every Man.

George W. Lieber of Oklahoma City, Okla., came to Maryville Friday night for a brief visit with his mother, Mrs. John Lieber, and sisters, Mrs. Gallatin Craig and Mrs. O. L. Holmes.

In speaking of Oklahoma City's marvelous growth, nearly all of which Mr. Lieber has witnessed and has been intimate with as a newspaper man, in reply to a question as to what he regarded as the principal reason for that city's rapid development, he said without hesitating an instant that it was due to the successful effort business men of that city have made in bringing about the square deal for every man.

The city has an inspector of weights and measures, who reports his findings to the city authorities. Any complaint made by any customer as to weight and measure of anything purchased is always investigated and the business man is arraigned in court and fined and the newspapers publish the court's finding.

The inspector examines all scales and measures to see that they are accurate, which makes him about the busiest man in town, and the merchants are as anxious to have their scales correct as is the customer, for when it is found that a man has had to be prosecuted for dealing dishonestly, he may just as well shut up his business at once, for he will not be patronized.

"A square deal for everybody and a city with the cleanest streets in the country" are two things Mr. Lieber takes pride in telling of his home city.

Mrs. Avery Connor, living south of Maryville, went to St. Joseph Saturday morning to visit Mrs. John Allen.

Mr. and Mrs. J. T. Karr went to Barnard Saturday morning to visit Mrs. Nannie Rogers for the day.

BIG SEEDLING PEACHES.

R. H. Duncan Has Fruit Measuring Ten and One-Half Inches in Circumference.

R. H. Duncan brought six seedling peaches to The Democrat-Forum office Saturday that would be good specimens any year, but especially so this season, when everything seemed unfavorable for peaches and a good many other things. The peaches measure 10½ inches in circumference. Mr. Duncan raised the fruit on his place, on North Mulberry street. He dug the tree from which the fruit came, nine years ago from the side of the road by W. D. Ashford's place, just off of North Main street, and the next year planted its seeds.

Three years ago the trees were frozen down by the great sleet storm in this section, and the fruit shown today came from the sprouts that came up the following spring. Mr. Duncan has given the peaches the name of October peach, as they ripen about the middle of that month. The meat is a rich yellow and juicy.

POLITICAL NOTES.

(From Democratic Press Bureau.)

A man named Hadley has broken into print with a public confession. He would run for United States senator on the Republican ticket under certain conditions. Mr. Hadley will be remembered as the gentleman who assisted Dr. Roosevelt at the birth of the Bull Moose baby and then assisted the Republican party in its efforts to abduct the kid.

Keep it before the farmers. A Democratic state administration is spending three hundred thousand dollars upon the roads this year and every dollar of the money comes from grain speculators and automobile owners.

The Kansas City Journal, Republican, continues to pour hot shot into Mr. Roosevelt and the Moosers. Mr. Roosevelt and the Moosers continue to pour the same sort of ammunition into the standpatters and such organs as the Journal. Never were there such happy times for Missouri Democrats.

There is only one consolation left for the Republicans and Bull Moosers, and that is the privilege of lambasting each other. In both state and nation the Democrats have legislated so wisely and managed affairs so well that even the enemy can find no cause to complain. Except for the fun of taking out their spite on each other there's no telling what the Republicans and Moosers would do to relieve their feelings.

Goin' to the Dawgs.

About some forty years ago,
When I was but a lad,
Some people used to go around
With faces long an' sad,
They talked of tyrants, an' of trusts,
Of plutes, an' demagogues,
An' said this good old land of ours
Was goin' to the dawgs.

I was a child, an' as a child
I listened to it all,
Expecting every day to see
The nation hit the wall;
But I've about begun to believe
It ain't no use to fret—
The nation's doin' pretty well,
The dawgs ain't got it yet.

I hear 'em say if sich an' sich
A law should ever pass
'Twould bring a great calamity,
An' ruin the farmin' class;
But I don't pay no 'tention to
Their talk, because I know
They used to say the same old things
Some forty years ago.

60 Tons of Coal to be Given Away

Our Annual Fall Stove Show which opened last week with the Majestic Demonstration is a regular three ring circus, and it is not half over. No peanuts or red lemonade, no clowns or trapeze performers, but so many interesting new things on display in our stove department that one hardly knows where to look first.

We do not claim like Barnum, that this is "the greatest show on earth" but we do say in all sincerity that it is a show of the greatest stoves on earth.

The Majestic Ranges, Favorite Base Burners, Estate Oak Heaters and Cole's Hot Blast Heaters

Have been pleasing the public for several years and have won universal recognition as the best built, longest wearing, and most scientifically constructed stove in America. They have always led in improvements and this year more than ever before.

Saturday, October 4, the Cole's Hot Blast will be sold to the highest bidder.

Thursday, October 9, a special demonstrator from the factory will demonstrate the *ECONOMY SOFT COAL BASE BURNER* and will give absolutely free to each purchaser of same, one ton of Illinois Nut coal worth \$5.25. This is a special invitation to you and your friends. Come if you intend to buy or not.

FACTS ABOUT MISSOURI.

Interesting Researches Into the Early History of the State—First White Man Set Foot Here in 1541.

The University of Missouri prints the following interesting researches into the early history of the state:

In 1541 the first white man under De Sota set foot on Missouri soil.

The Missouri river was discovered in 1673 by Marquette and Joliet. Nine years later the same river was named the St. Philip, by La Salle.

1761 the French, under Count de Frontenac, built forts and started settlements in Southeast Missouri.

To Anthony Crozat the right of mining in Missouri was granted in 1712. Seven years later, Sieur de Locon dug lead on the Merrimac and M. de la Matte found this mineral near Fredericktown and Renault.

A Spanish expedition sent out from Santa Fe in 1720 was massacred by the Indians near Boonville. The country was thrown open two years after this by the king of France to all his subjects, and the lead mines were much improved.

Laclede Liguist established St. Louis in 1764. This place was made the capital of Upper Louisiana a year later by St. Ange de Bellerine.

The year 1787 is called "the year of the ten boats," because ten barges arrived in company at St. Louis from New Orleans.

In 1805 the territory of Louisiana was established with Gen. James Wilkinson as governor.

Fort Bellefontaine was established on the south side of the Mississippi river a few miles above the mouth in the year 1806.

The Missouri Gazette, the first newspaper west of the Mississippi river, came out in July, 1806. Joseph Charles was the publisher.

The territory of Louisiana changed its name to the territory of Missouri on January 4, 1812, with William Clarke as governor.

The first legislature of Missouri met in St. Charles on the third Monday in September, 1820. There were fourteen senators and forty-three representatives.

An act of the legislature passed Nov. 28, 1820, fixed the seat of government at St. Charles until Oct. 1, 1826, at which date it was to be moved to Jefferson City.

On Aug. 10, 1821, a copy of the act of the Missouri legislature was delivered to the president of the United States and he immediately proclaimed Missouri admitted to the Union.

The population of St. Louis was given as 5,500 in the first directory issued in that city in 1821.

The penitentiary was opened at Jefferson City in 1836. For some time there was only one prisoner.

The state house at the capital was burned in 1837 and with it all the early records.

The contest as to the boundary line between Iowa and Missouri began in 1838.

Half a million immigrants came to Missouri in 1839.

A fire in St. Louis destroyed 400 buildings valued at \$3,000,000 and in the same year, 1849, cholera proved fatal to more than 4,000 people.

In 1861 Governor Jackson called for 50,000 militia.

The convention of 1861 declared all state offices vacant and chose Hamilton R. Gamble as provisional governor, July 30.

The 1895 Pertle Springs Democratic convention on August 6 made free coinage of silver a national issue.

**Democratic Leaders Witness
Ceremony at White House.**

CURRENCY REFORM NEXT STEP

Executive Says Legislative Journey Only Partly Completed—Gold Pens Used Given to Underwood and Simmons.

Washington, D. C., Oct. 4.—Surrounded by the leaders of a united Democracy, President Wilson signed the Underwood-Simmons tariff bill at the White House. Simultaneously telegrams were sent to customs collectors throughout the country by the treasury department putting into actual operation the first Democratic tariff revision since 1894.

A happy group of legislators, members of the cabinet and friends encircled the president as he smilingly sat down and slowly affixed his signature with two gold pens. He presented to Representative Underwood the pen that had written the word "Woodrow" and the one which had completed his name to Senator Simmons, both of whom bowed their appreciation.

In impressive silence the president delivered in easy, natural tones, an extemporaneous speech that brought prolonged applause.

He said that the journey of legislative accomplishment had only been partly completed; that a great service had been done for the rank and file of the country, but that the second step in the emancipation of business was currency reform. He earnestly called upon his colleagues to go "the rest of the journey" with fresh impulse.

The situation confronting the administration currency bill in the senate has become a matter of deep concern to President Wilson and members of the senate who favor early action on the bill. Four members of the senate banking and currency committee have tried to devise a plan for hastening action on the bill, but they have not decided finally what course to follow, if the full committee refuses to report the bill back to the senate.

NEXT MOVE IN DAVIS CASE

Use to Be Made of Confession Is Not Determined.

New York, Oct. 4.—What use will be made of the startling confession of George E. Davis, union iron worker and dynamiter, depends largely on the outcome of the cases of Frank M. Ryan and other officers of the iron workers' union, now on appeal in the federal courts.

Walter Drew, counsel for the National Erectors' association, whose pursuit resulted in the arrest of Davis here, said that if Ryan and his associates gained a new trial, Davis' revelations would be the government's most formidable weapon. Drew intimated that the arrest of Davis and of Harry Jones, secretary and treasurer of the iron workers' union, did not end the task of the erectors' association.

Jones, according to Davis, did much of the office work in connection with the dynamiting of a dozen bridges and steel frame buildings in the east. Davis was the man in the field.

Drew insisted that his association had no desire ruthlessly to persecute the union.

IMMUNITY GIVEN HENNING

Man in Funk Blackmail Case Names the Principals.

Chicago, Oct. 4.—Renewed vigor in the search for two men alleged to have supplied John C. Henning while he was a fugitive from justice was injected into the case after State's Attorney Hoyne had interviewed Henning, who has been promised immunity.

The state's attorney stated that Henning's evidence, while valuable, contained nothing not previously known in connection with the allegation that Henning's unsuccessful alienation suit against Clarence S. Funk was due to a conspiracy growing out of Funk's testimony against Senator Lorimer.

The two men who are missing are said to have been the agents of the men "higher up" in providing Henning with funds not only for his escape from a trial on a charge of perjury, but during his suit against Funk.

HIT IN FACE BY REED

Missouri Senator Strikes Witness in Lobby Investigation.

Washington, Oct. 4.—The senate judiciary committee room, where the recent lobby investigation was held, was the scene of a personal encounter between Senator Reed of Missouri, one of the leading members of the investigating committee, and John McIntyre, said to be a former officer of the National Typothetae, whose name figured in the correspondence of Martin M. Mulhall, the legislative agent for the National Association of Manufacturers. There were few witnesses to the episode, but it is said Senator Reed struck McIntyre in the face, accompanying his action with an emphatic statement as to the falsity of certain allegations contained in an affidavit which McIntyre was supposed to have in his possession.

**HUMPHRIES HAS
CHANGE OF HEART**

Court Dispenses Pardons and Remissions Wholesale.

CHANGE FOLLOWS CONFERENCE

Tells Hearers, "I Hold the Keys, I Have Great Power"—Woman Prisoner Likens Him to Pontius Pilate—Score Still in Jail.

Seattle, Wash., Oct. 4.—Superior Judge John E. Humphries, who began the day in belligerent mood, with his docket bill of contempt of court cases against Socialists, and who began the session by denouncing his brother judges, who, he asserted, had been plotting against him, adjourned court after dispensing pardons and remissions to all comers. His change of attitude came after a consultation with a representative of eight other superior judges.

The most remarkable feature of the day in court was the discharging of Dr. Herman F. Titus, Kate Sadler and Millard Price, the citation of whom to answer contempt charges, because of speeches they made in city hall park, July 24, led to the "resolutions of defiance," whose signers have been on trial and a number of whom are in jail.

"Sassy" Defendants Fare Ill. In the morning the penalties imposed were severe, in the afternoon mild. The court frequently warned the defendants not to be "sassy." Those who were "sassy" fared ill.

After the "defiant" persons had been disposed of the case of Dr. Titus on the charge of violating an anti-street speaking injunction was called. The judge delivered a long address, saying it had wrung his heart to be obliged to send so many of his old friends to jail, but declaring he must enforce the law. He had been obliged, he said, to send even his old cook, "Bole," to jail for "getting sassy."

The judge dwelt upon the great power he wielded, saying he had but to close his hands to put his hearers in jail, and to open it to let them out. He explained:

"I hold the keys. I have great power. I am higher than the governor. I can put you in jail and I can pardon you."

Then the judge discharged Dr. Titus to the latter's intense astonishment. Score Still in Jail.

At the close of court the principals in the Socialist contempt cases were free and more than a score of persons were in jail in default of payment of fines, varying from \$5 to \$300 for "talking back to the court." Three of the latter had been sentenced to six months each in prison.

Five women are in jail for non-payment of \$100 fines. They are Mrs. L. F. Reed, a stylishly dressed young woman, who resented a remark made by the prosecutor about her good clothing and pleasing appearance; Mrs. Katherine Stirtan, who likened the court to Pontius Pilate; Mrs. Millard Price, who said she was from Missouri; Mrs. Annie Anderson and Mrs. Mary Jarvis.

ARSON AND GRAVE ROBBERY

Montana Rancher Arrested in New York on Many Charges.

New York, Oct. 4.—Charged with conspiracy, arson and robbery of a grave, Arthur S. Hughes, a ranch owner of Forsythe, Mont., was arrested here at the request of Sheriff Mosen of Rosebud county, Montana.

According to the complaint, a man named Craig was killed in Forsythe about two and one-half months ago by a railroad train. Hughes, it is alleged, took Craig's body from the grave, where it lay, carted it to his home, placed it in a bed chamber and then set the house on fire. The body, burned to a crisp and unrecognizable, was found in the embers and Mrs. Hughes went into mourning for her husband. Hughes, the complaint continues, disappeared.

A few days later Mrs. Hughes married Elliott and put in a claim for the \$3,000 insurance on Hughes' life.

CHEERFUL IN LIVING TOMB

Buried Miner Content to Spend Another Day in Prison.

Centralia, Pa., Oct. 4.—Cheerful in the face of disappointment because he has not been rescued from the gloomy cell 100 feet below the surface, where he has been entombed for eight days, Joseph Toshesky called through his food tube to rescuers that he was satisfied everything possible was being done to get him out and that he was content to spend another day behind the wall of coal.

Mine officials directing the rescue work at the Continental colliery, where Toshesky was caught behind a fall of coal last Friday morning, assured him that he would be liberated this afternoon.

Can Pick Up Little Extra Change. Freeport, Ill., Oct. 4.—Conference evangelists have a perfect right to "pick up a little extra change" by lecturing at chautauquas and filling other "outside" engagements. This was the sense of the Rock River conference of the Methodist Episcopal church as expressed when a motion was made to limit activities of the evangelists to duties prescribed by the church discipline.

HEADACHY, COSTIVE, BILIOUS—"Cascarets"

Sick Headache, Bad Breath, Sour Stomach, Mean Liver and Bowels Are Clogged—Cheer Up!

Get a 10-cent box.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.—Advertisement.

**DUN'S REVIEW OF
TRADE CONDITIONS**

**Business in Most Departments
Continues to Make Progress.**

New York, Oct. 4.—Dun's Review of Trade says:

Business in most departments continues to make satisfactory progress, one feature being the increased disposition of merchants in numerous lines and widely separated parts of the country to anticipate future requirements.

Some uncertainty has been expressed as to conditions in sections of the south where the cotton crop is reported to have been adversely affected, but the high prices at which the staple is now selling has evidently removed apprehension. Similar conditions prevail in districts where crops suffered from drought.

In the east, where commercial and industrial operations have been retarded by tariff uncertainty, the final settlement has encouraged merchants and manufacturers and operations are on a steadily broadening scale.

Failures this week numbered 254.

WILL HOLD OVER UNTIL MARCH.

W. L. Schoonover Will Be Switchboard Manager—Board Would Not Accept Resignation at This Time.

The board of directors of the Farmers' Telephone company were in session Saturday morning. The resignation of W. L. Schoonover as manager, was presented, but was not accepted, and arrangements made for Mr. Schoonover to continue his work until the annual meeting of the company.

It is said that the meeting was somewhat a stormy one. The board of directors are divided and are not working together.
